PREMIER AWARD WINNING FILM MAKERS

# AWARD WINNING LUXURY WEDDING VIDEOGRAPHER MENTORSHIP

## WHO IS STEF?

My name is Stef, I am a wedding videographer with nearly 10 years of experience in the wedding industry. I consider my office to be the best office in the world, when I go to work I get to not only attend epic weddings but also capture the most beautiful and heartfelt moments. This isn't just a job to me, I pour my heart and soul into every film I craft.

Mentorship is something I stumbled into if I am being completely honest. Over the years I would get inboxes from creatives starting out and it would instantly remind me of my first years in the industry. As well as beginners I also work with established photographers and videographers looking to sharpen their skills and get new perspectives of wedding film making.

Just as I craft bespoke wedding films, I also tailor my mentorship to your unique needs and goals. Whether you're just starting out or seeking to refine your skills, I want to help you reach your full potential and make you fall in love with wedding film making as much as I did.

# What You'll Gain from Stef's Mentorship

1. **Technical Mastery:** Learn the ins and outs of videography equipment, camera settings, Audio and editing techniques to create stunning wedding films.
2. **Storytelling Skills:** Discover the art of storytelling through your lens, turning moments into timeless narratives that couples will treasure forever.

9. **Delivery Methods:** Learn the best ways to deliver your clients film. How to manage expectations and how to up sell and maximise profit
10. **Post Wedding Communication:** Learn how to communicate efficiently get great reviews and also upsell additional edits to maximise profit.

# MUCH MORE THAN JUST A WEDDING VIDEO

## FILMS THAT TRANSPORT YOU BACK IN TIME

We know what it takes to create something truly special. Our films are crafted over an 80 hour post wedding process with an extremely high attention to detail. The way we see it is that your film is going to be treasured by generations to come and so it has to be perfect. We intricately create a film that when you hit play, transports you back to those warm feelings you had on your wedding day. Our films are colour graded and we use sound design to bring the film to life.

# WE LIMIT OUR INTAKE TO MAINTAIN A HIGH STANDARD

Each year I take on 5 - 10 new mentees. I limit the intake to make sure when offering ongoing support I am able to give undivided attention. I want to help creatives unlock their true potential and really focus in on how I can help.

# DONT TAKE OUR WORD FOR IT

## CLIENT TESTIMONIALS

I had the pleasure of engaging in several mentoring sessions with Stef from Lincolnshire Videography, and I must say that I found these sessions incredibly valuable. Stef possesses a wealth of experience and readily shares fantastic advice without hesitation.

During our sessions, we reviewed some of my wedding films, and Stef provided insightful critiques while offering numerous invaluable tips and tricks for both filming and editing. Implementing these suggestions has not only saved me hours of editing time but has also significantly enhanced the quality of my work.

As a firm believer in investing in my business through continuous education, including courses and mentoring, I am always seeking opportunities to learn and improve. Based on my experience with Steff, I wholeheartedly recommend scheduling mentoring sessions with him. Once again, thank you so much, Steff!

# DONT TAKE OUR WORD FOR IT

## CLIENT TESTIMONIALS

I recently took a days mentorship with Stef and was blown away both by his knowledge of his craft & what a genuinely friendly and super helpful guy he is. If he is shooting your wedding then you are going to get the most amazing service and film & if you are lucky enough to be mentored by Stef you are going to learn so much. Highly recommended!

When I met Stef it was clear that he not only loved creating wedding films, but also he loves teaching others.

The things I took away from our mentoring session have completely changed my business. I am now able to command a higher fee, offer a better service and also feel confident knowing that what I have in my tool kit are skills I can apply to my business now and in the future.

If you are considering mentorship then listen to your heart. It is the best investment I have made, I wish I had done it sooner.
